1. What does the analogy “AI is the new electricity” refer to?

1 / 1 point

- ☐ AI runs on computers and is thus powered by electricity, but it is letting computers do things not possible before.
- ☐ Through the “smart grid”, AI is delivering a new wave of electricity.
- ☐ AI is powering personal devices in our homes and offices, similar to electricity.
- ☒ Similar to electricity starting about 100 years ago, AI is transforming multiple industries.

**Correct**

Yes. AI is transforming many fields from the car industry to agriculture to supply-chain...
